Dominik Irnich, MD, is head of the Interdisciplinary Pain Centre at the University of Munich. Since 2016 he is president of the German Medical acupuncture association (DÄGfA). From 2010 to 2016 he was head of the educational center of the German Medical acupuncture association (DÄGfA). In this function he was in charge of about 500 full day courses in Acupuncture, TCM and Related Technics each year.

He has passed his post doctoral lecture qualification (Habilitation) at the University of Munich on the issue acupuncture (appellation "Privatdozent PD" equal assistant professor).

Dr. Irnich is a renowned expert of acupuncture research and invited lecturer on acupuncture at different universities in Germany, Europe and USA (e.g. Berlin, Frankfurt, London, Harvard Boston, Melbourne, Tokyo). He was responsible conductor of a research grant from the German Ministry of Education and Research on acupuncture. He is laureate of different renowned awards.

Dr Irnich is practicing daily acupuncture. He has undergone TCM education in China (Beijing WHO Collaborating Centre of Traditional Chinese Medicine) and Germany (DÄGfA)

He is member of the faculty at different institutions (e.g. Structural Acupuncture Course, Harvard Medical School), (co-)editor of scientific journals and member of national and international research groups (e.g. Acupuncture Trialist Cooperation). His fields of research include basic science research (physiology of peripheral nociception including acupuncture) and clinical research on Acupuncture and Pain (research methodology, clinical effectiveness). Since 1996 he published 85 scientific papers as principal author or co-author. The latest come out is the English version of his successful "Leitfaden Triggerpunkte" by Elsevier. It is a comprehensive manual on trigger point called: "Myofascial Trigger Points: Comprehensive Diagnosis and Treatment" by Churchill Livingstone.
